Dear School Leaders:

The Department of Elementary and Secondary Education’s Leadership Academy is proud to offer our Satellite Academy Program for the 25th consecutive year. Using the Educational Leadership Policy Standards (ELPS) as the program’s goals, Satellite Academy participants will have a unique professional development opportunity utilizing the following themes: self-improvement, understanding and leading change, and school improvement design and implementation.

Participants will be given the tools to develop a personal-improvement plan based on assessment data, profiles and feedback. Each participant will learn about and develop an action research project. Participants will also acquire basic knowledge regarding change processes, data collection and analysis, and professional development for teaching and learning. Data collected over the years of the program indicate significant improvement in the skills and knowledge base of those attending the Satellite Academy. School leaders leave the Satellite Academy renewed and refocused on implementing school improvement programs for their buildings.

Don’t miss this opportunity to attend the top leadership programs in the state and nation.

Sincerely,

Doug Miller, Ph.D.
Coordinator of Professional Development/Leadership Academy

Who

All practicing or aspiring leaders and administrators in public, private and parochial schools are eligible for the Satellite Academy Program. Participants must have a strong commitment to their own growth and development.

Why

The focus of this sustained program is to develop school leaders who can positively and significantly impact student performance through effective school improvement practices. In Missouri and throughout the nation, school improvement mandates and standards are redefining the school administrator’s role. The pressure is on to provide a quality education for each child. Missouri school leaders and administrators must have continuous opportunities to develop and hone skills for instructional leadership.
